## CELEB CRUSH BY NICOLE CHRISTIE PDF

Twenty year old Anderson "Andi" Kelly curses the day she got roped into helping plan the wedding of her cousin to her cheating ex-boyfriend. To save face, she tells everyone her boyfriend is megastar, Lucas Greyson--currently Hollywood's hottest actor. In reality, Luke is Andi's boss and a good friend--and vacationing out of the country at the moment. It's the perfect lie; what could go wrong?

She finds out the hard way when Luke unexpectedly shows up at her family's front door. Caught, Andi is forced to tell him about her little white lie--and to her horror, Luke decides he wants to maintain the charade. Left with no choice, she assumes the enviable role of Lucas Greyson's besotted girlfriend.

And that's when things start to get really complicated. As they help each other navigate through ex-boyfriends and conniving co-stars, Andi begins to look at her famous boss in a new light. Soon the line between real and make believe gets blurred, and she finds herself with a difficult choice to make: keep her heart safe and grounded...or shoot for the stars.

I'm crushing too!

By eBook Addict

I have been lost in the tsunami of stepbrother romances that are flooding the market at the moment. Which is kind of ironic, because Nicole Christie wrote one of the best in that genre, long before it was particularly popular. Her debut novel, "Falling for the Ghost of You", was a fantastic read - engaging, sexy and laugh-out-loud funny - and I was in love with her characters and writing. Then along came her follow-up novel and my admiration came to a screeching halt. I really didn't like "Slow Burn". In fact, I was probably its harshest critic, noting that I hoped Ms Christie would go away and regroup before writing her next novel.

Well, she regrouped alright. She's probably still out there somewhere holding her middle finger up to my review of her previous novel, because this one is redemption in spades.

I loved this story. I started it in the evening and was still reading at 1am - and I'm not a slow reader. At 300+ pages, this is one substantial novel that really delivers. It's witty, credible and home to a host of characters who are believable and (for the most part) very likeable. You don't just get a hot hero and feisty heroine in this tale, you get a very well-rounded, ensemble cast who really help to flesh out the story. Anything written about the celebrity lifestyle can risk being over-the-top and too incredible, but Ms Christie is either a brilliant researcher or more than a little familiar with the reality of being an A-Grade actor. And the sexual tension - oh, my... In keeping with this author's style to date, it takes a while to get to the real action and it's not especially graphic when it gets there, but the build-up along the way is very steady and very satisfying.

While the introductory pages were slightly confusing - I couldn't quite work out who everyone was - it quickly became clear and I didn't want this one to end. I wanted to stay in Luke and Andi's world and keep crushing on the hero, too (I had a Hemsworth brother in mind, the whole time ;) ). Very well done, Ms Christie. I am eagerly awaiting your next one!

Extremely entertaining and amusing

By RFzizz

Take Tarryn Fisher's usual cold-hearted heroines but take away the underlying dark/depressed/tortured undertones and replace it with spunk and you get Andi. She is full of anger, hate possibly a little bit crazy and in need of therapy but she owned it. She was full of spunk and anything that came out of her mind and mouth were incredibly hilarious.

This was so entertaining - not very realistic but then stories involving big Hollywood celebrities tend to lean on fairy-tale-ish as opposed to realism, right?

My only complaints (albeit minor) were:

1. I would have wanted a little more emotional vulnerability from Andi. Empathy (especially on the painful part of the plot) wasn't that strong given that my emotional connection to Andi wasn't so strong. She amused me but I didn't really strongly feel for her and this is because as she herself said "she has a pathologically thick skin"
2. I would have wanted Luke's character to be more fleshed out. He had personality but she completely eclipsed him.

Celeb Crush

By Amazon Customer

This is the third book I have read by this author. And I was not disappointed. Nicole Christie 's books are such a great experience to read. I've read some comments on other books she had previously written. And I've seen some of the comments like her characters have verbal diarrhea, or its not age appropriate. And I whole heartily disagree. The verbal diarrhea is what makes you laugh out loud. Everyone has thoughts like the main character in her books. It is so hard to find books that can make you laugh hysterically out loud, make you swoon, and be heartfelt as well. The only problem with this author is I can't find a fan page or fb page to see when she is putting out new books. She is one of the authors I am always searching on my kindle just to see if she put a book out. I highly recommend this book to anybody who likes romantic comedies that actually make you laugh.
