From the Author

This book began in a bar, in downtown Memphis. I took a job there, thirty years ago, and was told the story about the first Piggly Wiggly store. Where I worked was the site of the original store. That fact motivated me to study Memphis history. I earned a MA at Memphis State University, and my thesis was this biography of Clarence Saunders. I assumed then a publishing deal was imminent, but that did not happen. Eventually I moved to other interests, particularly the life of Elvis Presley. I have had some success but always with the nagging thought, the Saunders book should be published.

I discovered History Press a few months ago. This relatively new publishing company offers trade paperback books on a variety of local history subjects. I was happy they saw promise in my work. I edited my biography for clarity and length, leaving the essential story intact. I selected over 60 images which help tell the story.

His story deserved to be told. If you are a Memphian, you may be familiar with Saunders. Years ago many people told stories about his forceful personality, his odd sense of humor, and his lavish spending habits. Two cultural institutions of the city, the Pink Palace Museum (the city's first museum) and the Lichterman Nature Center were his properties at one time. Inside the Pink Palace is a replica of the Piggly Wiggly store. Because he failed to keep his fortunes, we have these institutions today.

Saunders was, at one time, well known beyond Memphis. He had a lengthy obituary in the New York Times. His creative work with the Piggly Wiggly design and marketing brought national attention to a new concept in the 1920's, serve yourself at the grocery store. He was a pioneer in the supermarket business. The concept of self-service is now used world wide, in small convenience stores to the "big box" retailers. He predicted that self-service could be used to sell a variety of goods. All those retail entrepreneurs owe a debt to his early success.

Saunders' story is a story of "what if." What if he had not lost his first business idea and fortune in 1923. Would he be considered as prominent as his contemporary Henry Ford, who brought the automobile to the mass market? Would he be as prominent as Sam Walton, who in later years created the largest retail business in the world based upon a design of self service? We will never know. Sadly, his fame did diminish. A generation after I began my own research, and virtually everyone who actually knew Saunders has passed

on. Today I hope my own work will bring attention to Clarence Saunders again.

The grocery business began as a complicated service industry. Random pricing, inconsistent quantities and prescriptive salesmen made grocery shopping burdensome. It took one brash Memphian with uncommon vision and unbridled ambition to change everything. Clarence Saunders worked his way out of poverty and obscurity to found Piggly Wiggly in 1916. With an unprecedented approach, he virtually invented the concept of the modern self-service grocery store. Stores flourished, franchises spread and Saunders made millions. Yet just as the final bricks of Pink Palace--his garish marble mansion--were being laid, Saunders went bankrupt, and he was forced to sell Piggly Wiggly. A variety of new ventures helped Saunders out of bankruptcy, but he never duplicated his prior success. Memphis historian Mike Freeman tracks the remarkable life of this retail visionary.
