A Reading the Paranormal Review

By Kelly Rubidoux

I have to say that I've enjoyed everything J.L. Bryan has written (hoists the fangirl flag with a rousing cheer) and I'm REALLY digging on this new series. Ghosts, mayhem, quirky characters with intriguing back stories, and DANGER, ELLIE JORDAN! DANGER!

One thing I'm enjoying is how the past ties in with the present. Ellie has to piece together what happened long ago to figure out how it ties in with her current case. She's working off historical documents and a goodly dose of intuition (although she'd tell you she follows the facts, but I like the leaps she makes) to figure out who's who and why they're acting as they are. And, yes, she does follow the facts more than she intuitively. She treats her ghost hunting as a science, even when she invites the resident psychic into her

investigation. I just wonder if her run-in with a malevolent spirit when she was younger makes her more open to seeing connections that others might brush aside.

Speaking of the resident psychic, Ellie's love life is sort of a barren wasteland. While I'm not holding my breath that she's going to go for him (that might make things awkward down the line), I am hoping she finds someone who can understand what she does and why she does it.

It might be nice to have someone to lean on after getting thrown down a flight of stairs or two during a rough case.

Bottom line: I'm loving this series and can't wait to see what crazy ghostly shenanigans Ellie and her crew uncover next.

The details are engrossing, bringing the ghost to life and making it feel as if you're being watched!

By Paranormal Sisters

I couldn't wait to fall back into this world and go on ghostly adventures with Ellie! This time around it looks like our ghost hunters are dealing with a family of ghost and they're dangerous. At first the kids may have seemed innocent but they cause just as much trouble as their father. Those ghost children brought chills up my spine, seriously intense when they're trying to convince the little boy they're haunting to kill himself, just as much as their studded belt wielding father did. These ghost are a lot more physical than the group from the first book, a little light can't scare them away.

Ellie dives head first into yet another job and as we get deeper into the mystery we find out it isn't as simple as we thought. I liked the twist that we got, it definitely through me. I just wasn't expecting it and I love that in a mystery!

Cold Shadows hooked me from the beginning, just like the first one did! It's action packed full of ghostly encounters, having me not being able to put the book down! The details are engrossing, bringing the ghost to life and making it feel as if you're being watched! What fun when you're alone and it's dark outside ;). I seriously couldn't get enough of this book and the characters are just as fun, love them! Ellie and Stacey sure can have interesting conversations, they can definitely get me to laugh out loud.

Overall what another fun tale! I can't wait to read the next one! Mr. Bryan sure knows how to make you crave for more! The ending was great, showing that maybe there is light at the end of Ellie's dark tunnel. With more people coming into her life it looks like she'll finally learn how to open up. I just couldn't give this a five because I'm just dying to get more into Ellie's head! Hopefully we'll finally get that in the next one!

Don't read this in bed

By C Thilmany

Ghost hunter Ellie Jordan's newest case involves a house built in 1841 that has a lot of activity. Things get moved around or thrown, water dripping through the ceiling when there are no pipes above it, facets turning on... The house is dark, depressing and getting expensive for the family of 4 living there as house sitters for the past couple of years as they need to keep up the maintenance. Finding out who and why is both interesting and dangerous as this group of ghosts have the ability to kill you.

While I can't say my heart was racing, the tempo of my pulse did pick up in a number of scenes, and as someone who has had quite a few experiences with the paranormal, there is no way I could have faced –and still functioned—the activity and entities described. Wow.

The who, why and resolution were kind of surprising. The characters, especially the teenage daughter and 8 year-old son are believable and likeable, and it would be cool to see them again.

I like the fact that Ellie, her tech assistant Stacey and their psychic consultant Jacob are not portrayed as either kick-butt or fearless; just determined to get the job done, even when shaking in their shoes.
