## About the Author

John Suchocki received his Ph.D. in organic chemistry in 1987 from Virginia Commonwealth University, where his research focused on the isolation and characterization of natural products. After a two year post-doc in medicinal chemistry/pharmacology at the Medical College of Virginia, John became a visiting assistant professor of chemistry at the University of Hawaii at Manoa where he began working with his uncle, Paul Hewitt, on the liberal arts college textbook, "Conceptual Physical Science," now in its Third Edition. After a couple of years at the Manoa campus, John transferred to and eventually received tenure from Leeward Community College, one of the University of Hawaii's community colleges. At Leeward CC, his research efforts turned to chemical education, with particular emphasis on liberal arts chemistry courses and distance learning technology. After a decade in Hawaii, John relocated to Vermont with his wife and three children, where he now teaches liberal arts chemistry at Saint Michael's College. Concurrent to his writing and teaching careers, John is also a producer of multimedia content for science education, including his "Conceptual Chemistry Alive!" CD-ROM series.

Excellent text book

By Elizabeth

Excellent beginning chem. text book, especially for non-chemistry majors like me. A friend gave me her text book (an older edition) to help me with my self study of chemistry. I really liked the approach of the author, demonstrating how chemistry is relevant in everyday life. There are fun and easy experiments to try at home. I also enjoyed the supplementary videos. Get the book used if you can though, science text books are ridiculously expensive.

Perfect

By Tyler R Hutchinson

If you haven't studied Chemistry in High School this is the book for you if you are starting into college Chem. My professors mandatory book is this very one and it has helped get a much better understanding of chemistry for things I didn't know.

Great Rent!

By Amazon Customer

Good condition. Wasn't new, but wasn't torn up either. No problem using it for my course. Got the job done. Very well taken care of.
