Review

Historical Deception: The Untold Story Of Ancient Egypt provides a fresh, exciting and reader-friendly study of ancient Egyptian history -- a history which has suffered from the ingrained prejudices of religious scholars (Christian, Jewish, Moslem) who deny that Egypt is the source of their creeds (especially monotheism); and rationalist scholars denying the existence of science and philosophy prior to the Greeks. Historical Deception is a much needed correction to a great deal of historical distortion, suppression and denial. Historical Deception is a lively, engaging, stimulating, provocative reading, easy to read and difficult to put down. -- Midwest Book Review

From the Publisher

Moustafa Gadalla is known for his direct, clear style of writing.

From the Back Cover

Read about...

- Their medical knowledge about determining the sex of the unborn child.
- The Egyptian spiritual roots of George Washington, Napoleon, and Mozart.
- The Pharaohs who the Bible intentionally did not name, and why.
- The facts about the Exodus.
- The facts about their religion, animal worship, the pyramids, the "tyrant Pharaohs", slavery, Jesus, Moses, David, Solomon, Joseph, and much more.

Historical Deception

By DBL

I bought and read this book and a number of others by this author. I was amazed at how historically correct his assertions were when I researched his conclusions. He opened many doors of which I was completely unaware. I believe he has greater credibility than most so called historical authors and has demonstrated the intestinal fortitude to speak out and stand out from the crowd. He reminds me of the amateur archeologist who discovered the ancient lost city of Troy. I highly recommend his work.

This book offers truthful explanations...

By Brad Broos

If you are looking for a truthful description of Ancient Egypt, this is a good place to start. Mr. Gadalla offers a very reader-friendly glimpse into the aspects of Ancient Egyptian society and the many contributions they have made throughout the world. Furthermore, he is attempting to dispell our preconceived -- and often misled -- notions surrounding Ancient Egypt. He also sheds a great deal of light onto the interrelated issues between Egypt and the early years of Judaism and Christianity. This is done in a forthright manner, but it is neither condescending or an attack against these religious faiths. After all, I feel that true love comes from knowledge and understanding, not from a sense of guilt or duty. Thus, no one should be offended by the truths he points out. This book should be read with an open mind. That is really all that is required of the reader. It is rather refreshing to have an unbiased lesson on a topic as broad and important as this.
