Eye opening book

By Gary Delia

Purchased this book for an English composition course, and it is the best text i have had. There are a number of works in here that if you read closely, really challenge the way you think and can help you to examine and vet your views on a number of subjects, giving you a chance to understand your reasonings and those of others

Satisfied

The condition of the book was as expected; the content wasn't what I had been hoping for, but that's not the fault of the editor.

Nice book

By Shane

Got this book for school. Turns out it is rather interesting to read on free-time away from class. Some grade A authors and writers conjoined in the book. Great stories all around.
