A must for small business starters

By Amazon Customer

It's amazing how light reading it is and easily understandable for business starters like me. I have been running a private school for a couple of years and I teach 1-1 clients but I have never been strong on the business finance side. This book teaches me how to outsource admin, how to manage personal as well as business finance and how to use social media to market my services to reach more people. I keep it by my bedside so I can look it up whenever I need going through some of the guidelines. If you are a business starter and need clear and simple guidance, get this book! I strongly recommend it!

easy to follow yet very effective

By Live it, learn it, give it back

This book is a must own if you are starting out and getting stuck. Simple, easy to follow yet very effective. Results come from taking actions and this book will enable you to determine what actions are required. I fully recommend this book to help you and your business so that you can go out and help as many people as you want . :)

... to creating her own business path---and she's done a beautiful job at it

By Alexi Panos

Arabelle is someone who is SO committed to creating her own business path---and she's done a beautiful job at it. Her interviews with some of the best in entrepreneurship are so juicy....and I love that she is sharing that wisdom in a book!
