Best Guidebook I've ever used

By Simple is Better

I don't know if this is how all european guidebooks are, but it totally blows American Guides out of the water. All color photos, great directions to the crag and lots of different/beautiful climbing areas that are of high quality but off the international radar. If you plan on climbing in the Catalunya area, besides Rodellar, Margalef and Siurana then you'll need this guide. I also suggest climbers to check out Sadernes, it's in the NE section of Catalunya and is perfect for Summer cragging. The guidebook is available at the Sadernes campground, walking distance from the crags. Enjoy Spain, I sure miss it!
