PRINCIPLES OF PRACTICAL NATAL ASTROLOGY BY KEVIN B. BURK PDF

No one is born with the ability to interpret a natal chart. Talented astrologers got that way because they developed astrological interpretation skills. Interpreting a natal chart isn't a simple skill. It's not even a complex skill. Interpreting a natal chart is a process. Principles of Practical Natal Astrology demonstrates, step by step, how to create detailed, specific, practical interpretations of any natal chart. Interpreting a natal chart is like painting a portrait. In both instances, the objective is to capture a likeness of the subject. You can capture the essence of a person without copying their appearance. The events in your life, your behavior, and your choices are external, and relate to appearance. Astrology looks beneath the surface to reveal the essence. One of the most important skills in astrology is the ability to connect the appearance of a client with the essence of the natal chart. The intention of Principles of Practical Natal Astrology is to help astrologers and astrology students to develop this skill. Part 1: Principles of Practical Astrology The first few chapters define practical astrology, explore how to develop the skills of a talented astrologer, and introduce the concept of a three-dimensional chart interpretation. Part 2: Grammar and Syntax of the Language of Astrology In addition to learning the correct relationship between planets, signs, houses ruled, and the house occupied, you also learn how to work with the Essential Dignities in the context of the natal chart, using the Board of Directors model. Part 3: Systematic Approach to Synthesized Interpretation In these chapters, Sally Ride's chart is used as an example to explore the process of creating a written, synthesized interpretation of a natal chart. Part 4: The Spice Rack Once you've mastered the basics, you can add a pinch of spice to your interpretations by including sensitive points in the chart, working with dispositor trees, or incorporating Dignity and Debility. Part 5: Synthesized Natal Chart Interpretation Example The final chapters are an astrological portrait of George Lucas, including all of the interpretation notes, and the final interpretation created from the notes. Part 6: Appendices and Resources In addition to a comprehensive glossary of terms, Principles of Practical Natal Astrology comes bundled with exclusive bonus gifts.

That ability is the defining characteristic of a good teacher and it makes learning simpler

By Occam

Kevin is one of the most knowledgeable astrologers in the world. He's able to distill and present concepts in an approachable, concise manner. That ability is the defining characteristic of a good teacher and it makes learning simpler, faster and much less painful.

The information packed in this tome is accurate, clear and most of all, PRACTICAL, just like the title says. I

love that he approaches this incredible art from David R Hawkin's consciousness model. It gives shape, scope and definition to the hidden key of Astrology, Consciousness.

Astrology is a symbol set, it is a means of apprehending the self and Self, the mundane and the arcane. Unfortunately, the art in our time is watered down, muddled and riddled with error and confusion. Kevin's book and his courses shine a clear light in the murky corners, and properly explains the reasons "traditional astrology" is the way it is and how "modern astrology" conflates the archetypes of the signs with the houses. He takes the time to explain how and why the way it was is still the way is. Good methods don't change their fundamentals, they expand their viewpoint and context, but RELY on the fundamentals. Just be glad this book is here and you don't have to translate Latin or read Lily which is almost the same thing :)

This book is a gift to anyone wanting to learn astrology and it elevates the practical art of astrology to its proper place.

I highly recommend this book to any astrologer, newbie or veteran alike.

Thanks Kevin for sharing your passion and gift. It made a difference for me, and through me, it will make a difference to others.

It's useful and inspiring

By Dimitrina Georgieva

I had the chance to be a part of The Real Astrology Academy and I am one of those "ten Intrepid cades" who joined it at its opening back in 2013. As a participating witness of all the work, struggle and fascinating results that Kevin's teaching and coaching involved us in, I was impatient to preorder the book. When it arrived I read it in a single breath - an emotional approach to it, then reread it with concern of its essence and practical use.

Now, I can't ignore the fact of all the work and training done in the Academy, but even based on these acquired knowledge and talents I still find the book is my most precious hand out when doing natal astrology interpretations on my own.

- it contains every practical thing I have learned from Kevin
- the author's approach is serious and responsible to the matter, yet very friendly and comprehensive
- the huge information is carefully and practically organized

This book could be an invaluable reference for Kevin's students and a solid starting point for those who are eager to learn how to interpret a natal chart. It's useful and inspiring.

Actually explains how to interpret a natal chart

By M. Shannon

Do you have a collection of well worn beginner's astrology books sitting on your shelf, but you still can't figure out how to interpret a basic natal chart? Is your Mercury in Virgo, do you enjoy detail and practicality? Kevin Burk's book spells out, step by step, how to interpret a natal chart, something many other beginner books gloss over at the end. Burk's method will enable you to actually understand and, more importantly, put into practice the ancient art of astrology. And if you can't get enough of this guy's method, just check out his online intensive training class which will really take you to the next level. Burk knows his stuff and is able to convey it to his audience in an understandable and precise manner. So, if you are tired of reading the same general descriptions of planets, houses, and signs, and want to actually do your own interpretations, get this book, you won't be disappointed.
