I like that the assignments were real life situations

By Shirley Barton

I'm a user of Excel but this book showed me a lot of new tricks. It's clear step by step instructions. Each lesson builds on what you learn previously so the skills are reinforced as you go along. I like that the assignments were real life situations. I was able to take what I learn and immediately apply it in my job. I plan on purchasing Skills for Success Access 2013 next.
