In the writings of Epicurus, Epictetus, Lucretius and Marcus Aurelius, Greek and Roman philosophy comes into its fullest flowering. The advocates of the principles of virtue and pleasure are brought together into a single inexpensive volume for the first time; hitherto their works were obtainable only in separate, expensive editions. The four thinkers here represented have been brilliantly translated by Cyril Bailey, H. A. J. Munro, P.E. Matheson and George Long. In addition, Cleanthes' famous poem Hymn to Zeus and Matthew Arnold's Essay on Marcus Aurelius are included.

Lincoln once observed

By travel light and smiling

that this is exactly the sort of thing you would like if you like exactly this sort of thing. The works in this volume are translations of the authors. Since that's a form of interpretation (translation), we do face the question of how much is the essence of the ancient Greek and Roman author, and how much is the translator. I have owned copies of this work for three or four decades, and it's because I want to reference original writing of the era and I don't read either Latin or Ancient Greek. Since you have read this far, you probably have an interest in philosophy to some degree, and this ought to find a place in your library.
